SUSPENSION: Independent rubber cone type with telescopic dampers
STEERING: Rack and pinion, 2.4 turns lock-to-lock
BRAKES: 8.4 inch discs front, 7 inch drums rear
WHEELS AND TYRES: Cast alloy Revolution 5x12 wheels, 165/60R12 radial ply tyres
SECURITY: Full alarm system, VIN-etched glass, security coded stereo

Boot space is still usable and not too different to what you'd get with a saloon...

...although you will find the rear seatbelt mounting taking up space.

The Cabrio came with a decent sound system, with tucked-away speakers.

Mini steering wheel came as standard but you did get a wooden gearknob.

A head unit also came as standard, fitted in the full-length walnut dash.
