*Manufacturer's data.

All fuel economy figures are produced in accordance with the Passenger Car Fuel Consumption Order 1985. They have been calculated using a standard testing procedure. Under normal use a car's actual fuel consumption figures may differ from those achieved through the test procedure, depending on driving technique, road and traffic conditions, environmental factors, and vehicle condition.

All Mini models are equipped with a 3-way controlled catalytic converter and must use unleaded fuel. The use of Premium (95 RON) unleaded fuel is recommended. Unleaded petrol of a higher octane can be used. Fuel tank capacity: 7.5 gallons (34 litres).

Suspension

Front: Independent, wishbone with unequal length upper and lower arms operating against rubber cone springs. Telescopic hydraulic dampers. Rear: Independent, trailing arms operating against rubber cone springs. Telescopic hydraulic dampers.
